

Archos 7 home tablet

OVERVIEW

The ARCHOS 7 home tablet is a touch screen tablet that's a combination of smartphone and desktop PC. It's great for the home because you have full-page web browsing, yet it is wireless and ultra-portable. The ARCHOS 7 home tablet has a 7" screen with 800 x 480 resolution, two built-in speakers and a virtual keyboard. It connects to your network via WiFi, so it can be used in WiFi hotspots like coffee shops as well.

The ARCHOS 7 home tablet comes with access to the Android App market via the Android AppsLib. You'll be able to download exciting Apps with one click. In minutes you'll be gaming, shopping and communicating via social networks. The ARCHOS 7 does come with some pre-installed Apps including Deezer for Internet radio, eBuddy IM for chatting, Aldiko for downloading ebooks and the Daily Paper App for quick access to your favorite local daily newspaper, along with links to the world's daily papers.

The ARCHOS 7 is also great for sharing photos, watching video and listening to music. You can watch up to 7 hours of video in up to 720p HD resolution. For music, the ARCHOS 7 can play nearly every file type including MP3, WMA, OGG, WAV, FLAC and AAC(2). It will play for up to 40 hours before you'll need to recharge the battery. The ARCHOS 7 is great for uploading photos via USB or SDHC card. You can use your tablet for photo slideshows with music or just for sharing recent photos with friends and family.

If you're a social butterfly or have one in the house, you'll be able to roam freely from room to room utilizing services like Facebook, MySpace, Twitter, Google Talk, etc. The ARCHOS 7 avails your comfort, letting you use the bed or couch to update your status and post comments. You can quickly configure your email and gain access to most email accounts. You can type via the virtual keyboard or you can plug in a real keyboard or mouse via the USB host. The ARCHOS 7 home tablet even has a customizable interface, letting you put everything exactly how you desire. It's portable, adjusts to your needs and fills the void when a PC is too much and a smartphone is just not enough.

Great for Home

The ARCHOS 7 home tablet is ideal for sitting on the couch and enjoying a full Internet experience. You won't need to start your PC, as the ARCHOS 7 can do most everything your PC can. You can even use the USB host to connect a mouse or keypad for a real PC-like feel. The ARCHOS 7 home tablet is the perfect balance between your smartphone and desktop PC

WiFi Connectivity

With your ARCHOS, you can link to your home Internet network or a public WiFi source at a coffee-shop or park. Your tablet scans available networks, connects quickly and maintains a strong link to the network

Full-Page Web Browsing

With 800 x 480 resolution on a 7" screen, you can easily surf the web in full width. The full web page is displayed, so there is no navigating around a single screen and you won't need to zoom in and out. The text is easy to read on the vivid & sharp 7" screen

Access Android AppsLib

The AppsLib is the best tool for you to download the hottest applications. It offers one-click access to a large variety of free and purchasable applications for your ARCHOS 7 home tablet. Apps are classified by genre, ratings and date to help you find the ones you want. You can download Games, social networking, on-line shopping applications and many more. You can now work, play and shop directly on the ARCHOS 7 home tablet with the AppsLib store

Pre-Installed Applications

The ARCHOS 7 home tablet comes with Deezer, eBuddy IM, Aldiko and Daily Paper. Deezer has approximately 35 web radio stations and a SmartRadio feature, plus access to premium content. eBuddy IM is a multi-platform instant messaging application. Aldiko lets you download and read thousands of books direct to your Android device and the Daily Paper app lets view your preferred daily paper through the touch of the ARCHOS screen with links to the mobile sites of the world's daily newspapers

Customizable Interface

You can customize the ARCHOS interface to suit your needs. Place important information directly on the home-screen and it's only a touch away. Everything you need is at your fingertips

Video

The ARCHOS 7 home tablet lets you watch 7 hours of video in up to 720p HD resolution with 800 x 480 pixels. Enjoy and share videos with striking clarity in several file types

Music

Listen to 40 hours of music on your ARCHOS 7 home tablet. It will play most file types including MP3, WMA, WAV, OGG, FLAC and AAC(2). You can store songs and create playlists

Photo

You can upload and store photos onto your tablet, then share them with friends and family. Use the USB or SDHC slot to upload photos and then combine them with music to make a entertaining slideshow

Social Networking & Chat

You can connect with your friends no matter what service they are using. The ARCHOS 7 home table can support MSN messenger, Windows messenger, Yahoo, Google Talk, Facebook, ICQ, MySpace and AIM

Email

Manage emails from anywhere in the house. You can access most email accounts and easily configure your email.
